

## CQG to host showcase this Wednesday

### Trader and Psychologist Dr. Brett Steenbarger to speak

A valuable opportunity is less than 48 hours away!

The financial industry's brightest minds will gather on Nov. 30 at Chicago's Union League Club for an afternoon with Dr. Brett Steenbarger, author of *The Psychology of Trading* and a demonstration of CQG's latest functionality.

Dr. Steenbarger will look at what makes experts tick in performance fields, outlining the challenges of attaining superior performance in electronic trading. He will advise steps for enhancing trading performance.

"By establishing an emotional atmosphere that is positive or negative, in control or out of control, traders predispose themselves to better or worse action patterns," Steenbarger said on his website.

The showcase begins with drinks and appetizers at 3:30. To register, please visit <http://www.cqg.com/rsvp>.
