About TradeFlow

TradeFlow's color-coded bars instantly show the flow of buying and selling at the inside market, providing a way to analyze price independently of time.

During a recent demonstration of TradeFlow, Mark Fisher, founder of MBF Clearing Corp. and author of *The Logical Trader*, said: "This is a tool I will use."

CQG's TradeFlow charts show the electronic trader market aggression by graphically displaying volume hitting the bid or lifting the offer. TradeFlow gives traders the edge they need. To learn more, please visit www.cqg.com/tradeflow.
